Licorice has been believed to possess curative, even mystical powers. Licorice has in the past been used to protect against evil spirits, and it has served as a remedy for stomach pains, cough and lung infections. Today fortunately you can get licorice from the shelves of stores, without the need of pretending to be ill.

What is Panda's soft licorice made of?

We are extremely proud of our high quality ingredient list: top quality licorice root extract, wheat flour, a blend of two kinds of premium molasses and anis seed oil.

Simple as that!

The famous, wonderfully soft Panda licorice is prepared by a conventional cooking method, in which the raw materials are boiled onto dough and then compressed into their form in accordance with the licorice master Väinö Hilden's legacy recipe.

Licorice production began in 1927 in Vaajakoski, central Finland. And to this day, Panda's licorice has reached the market leader position in licorice products.

Since 1927, Panda has been producing licorice renowned for its unique flavour and softness. Panda Licorice is made from All Natural ingredients without preservatives, artificial colours, flavours or white sugar. Panda has the Real Taste of Licorice!
