History

Founded in 1967 by Werner Hufsky, whose vision was to import and distribute European confectionary products to the Canadian-European ethnic market.

In the early 1990's Werner's sons, Gordon and John, continued what their father had established. Since then they have strategically developed a portfolio of products that are both high quality and leaders in their respective countries.

After over 50 years in operation, Husky Food continues to conduct business using the same basic values that were in effect when the company was established.

Asbach®

Delicious Masterpieces of the Confectionary Art since 1924.

Actually it has been a reference to the ladies, which caused Hugo Asbach more than 85 years ago to create a brandy chocolate. In the "Golden

*Hugo Asbach
Founder of Asbach*

Twenties", it still was not proper for ladies to drink alcohol in public. However, it was allowed to eat chocolate. That is why Hugo Asbach decided in 1924 to cover his Asbach brandy with fine bittersweet chocolate. At this time, nobody originally thought of the fact that gentlemen would also be very fond of this new product, which turned out to be a very pleasant side-effect.

There are two components, which distinguish our Asbach chocolates from all our competitors: First of all, the unique oak cask fermenting process of the Asbach brandy itself and furthermore, the cold-depositing process developed by Asbach. For that reason, the tender sugar crust within the chocolate is incomparable,

left the traditional starch-moulding process, right the new cold-depositing process.

fine and thin-walled. The excellent tender sugar crust separates the fine Asbach brandy from the tender glaze of the bitter sweet chocolate. Of course connoisseurs will also find products without sugar crust within

Chocolates are sealed with finest chocolate

*The unique German specialty
from Ruedesheim on the romantic Rhine*

Asbach-Chocolate Assortment

the Asbach chocolate assortment. It is well known, that tastes differ. The fine Asbach chocolates from Ruedesheim on the romantic Rhine are delicious masterpieces of chocolate art.

In order to guarantee this high demand at all times, it is necessary to pay most attention to the production and of course to the packaging as well. In spite of most modern technology, it still requires a lot of manual work, until the Asbach chocolates will rest "sheltered like in a safe" in their very elegant boxes.

We are pleased to introduce our traditional legendary chamois-coloured Asbach chocolate boxes, newly designed for the regular Asbach chocolate customer, to be recognized as a classic and for our new customers up-to-date modified in an extraordinary elegance.

COCOA FROM OUR
OWN ROASTED BEANS

What makes Manner cocoa and chocolate so unique is the in-house production from the cocoa bean. The delicate flavour and high creaminess are achieved through special roasting, fine grinding, and several hours of conching of the cocoa beans.

The chocolate quality label stands for the highest quality of Manner chocolate!

Manner Gingerbread – almost like home-made!
The secret of Manner's gingerbread dough

The production of Manner's tasty gingerbread is based on a long baking tradition and is made with lots of love. In addition to the carefully selected ingredients, the dough-making process is especially important. Before baking, the gingerbread dough rests for two to three weeks to develop its soft and airy texture. This means its blend of flavors and freshness are retained for a long time, making Manner gingerbread a treat to savor.

Niederegger was founded by the pastry chef Johann Georg Niederegger in 1806. He was responsible for the company's rise to fame and the worldwide reputation still enjoyed by Niederegger marzipan to this day.

MARZIPAN *of the finest quality*

At our family-run business, the secret of Niederegger marzipan is handed down from one generation to the next.

Aromatic premium-quality almonds are the most important raw ingredient in the production of Niederegger marzipan. Kissed by the sun, our almonds have a characteristic sweet nutty flavour. For generations, we have been heating the almond mixture in roasting boilers over an open fire. This method releases the unique aroma for which our marzipan is famous the world over.

Classique

The classic product in the RAGUSA range with the smooth praline filling, whole hazelnuts and the original rectangular shape. RAGUSA has been produced this way for over 70 years, winning the hearts of Swiss consumers.

Noir

The strong, dark version of RAGUSA. With 60% cacao in the chocolate, NOIR offers the most intense RAGUSA experience. Here the classic speciality shows its elegant side.

Blond

RAGUSA BLOND rocks chocolate lovers: «BLOND» is distinct from white chocolate and expands the taste experience with a delicately sweet, smooth version. BLOND is named for its golden yellow colour and pronounced hints of caramel.

NUTS

A key ingredient of RAGUSA: hazelnuts helped turn RAGUSA into a cult product and a unique Swiss chocolate speciality.

FAIRTRADE COCOA PROGRAM

International Food Standard, Higher Level

FAIRTRADE – What is it and what is behind it?

Fairtrade stands for better living and working conditions for small farmers and workers in the producing countries.

- Fixed minimum prices for producers. A Fairtrade premium for community projects and the prohibition of exploiting child labor.
- Environmentally friendly and sustainable production methods are particularly encouraged.

The FAIRTRADE Mark includes our entire selection of hand decorated Confectionery items. Purchasing products with this Mark supports Fairtrade cocoa farmers and Fairtrade sugar producers.

The Fairtrade Cocoa Program enables small-scale farmers to benefit by selling more of their cocoa as Fairtrade. Visit: www.info.fairtrade.net/program

THEMES

We have been focusing consistently on creative chocolates for special occasions from the outset – all year round. We specialise in producing little gifts and 'sweet' messages. We want to impress consumers with products for giving, decorating, tasting and pampering.

QUALITY

Although the Riegelein figures reflect the spirit of the times, we still remain true to our tradition: providing the highest standard of products through top quality craftsmanship. All products are made without the use of artificial colours or flavourings. We regularly receive awards from the DLG and are certified by IFS. Consumers value the fantastic quality of our products.

COLOUR

We are passionate about colour – whether developing classic designs and worlds of colour for our traditional products or for our new trends. Our long-standing experience means we have a confident style and understand the tastes of our target group. Colour creates impulses.

SHAPE

We are continuously creating new forms with our specially crafted chocolate. We work with a network of competent designers to create new products based on traditional or modern themes, perfect for Christmas, Easter and other special occasions. We can deliver creative and diverse designs to suit any occasion.

seit 1884

Nougat

The Storz nougat recipes are handed down from ancient times. Here we benefit from our tradition “since 1884” and many years of experience.

What makes the Storz nougat quality so unique?

The hazelnut kernels are imported directly from the producer country, roasted by us and immediately processed as a guarantee for full aroma. We only use natural ingredients and pure cocoa butter.

Another special feature is the fact that nougat is conched at Storz, which means it is as elaborately processed as chocolate, giving this premium product a wonderfully creamy, delicate and delicate taste. We forego the chocolate shell and present “nougat pure”.

J.H. WHITTAKER

It was our Grandfather, James Henry Whittaker who first got a taste for the stuff when he was working for a confectioner in England, at the age of 14.

He came to New Zealand back in 1890 and began to put this chocolate expertise to use for himself. He started making his own in his Christchurch home. Using his horse and van (today it's a Mini Clubman) he would sell it door to door.

J.H. WHITTAKER

He moved to Wellington and since 1986 J.H. Whittaker has been making Australasia's premium chocolate.

In 1913, his sons Ronald and James join him in partnership to form J.H. Whittaker and Sons.

THE 2ND GENERATION

Business took off over the years, with our chocolates being eagerly sought by more and more respected retailers.

THE 3RD GENERATION

Today the company is still owned and run by the Whittaker family. Us, in fact. And we reckon we have all the passion for chocolate along with all this unique experience.

If we're not tending every step of the process, the sourcing, the roasting, the blending and the baking... then you'll find us up in the tasting room, dreaming up new and ever more delicious combinations.

We draw real strength in our family history. Remember the saying "blood is thicker than water", and chocolate is thicker than that, so there you go.

ANDREW AND BRIAN.
