Sonoma Gourmet

Started by chefs, our sauces have been curated to offer not only a great taste experience, but flavors that can't be found at every other retailer in the country. Sonoma Gourmet consumers are "foodies" just like we are! They love to experiment in the kitchen and Sonoma is the catalyst for quality, unique & healthy cooking.

Sustainable Manufacturing

PLASTIC Neutral FOOTPRINT

WE will be FULLY Plastic-free in 5 years. IN THE MEANTIME, For every pound of plastic WE USE IN packaging and shipping, we're removing a pound from the natural ecosystems through our partnership with *repurpose Global*.

100% GREEN ENERGY

our plant is powered by 100% renewable energy, and soon 30% of that will come from SOLAR ON our own roof.

LOCAL, LOCAL, LOCAL

California produces some of the world's most delicious ingredients and we're lucky to have that pantry in our own backyard. It allows us to source roughly 80% of our ingredients right here, and by 2025 we expect that number to reach 95%.

A 2nd LIFE

Today, about 99% of the packaging we use is either recycled, recyclable, or often both. By sourcing recycled packaging, we repurposed over a quarter million recycled containers last year alone.

SUSTAINABLE FARMING

We partner with some of the best farms in the world. That means delicious ingredients of course. It also means things like drip irrigation, water recycling, gravity-fed processes, and award-winning bio-gas programs. The best tasting foods can also be the best for earth.
